

2015 DEPARTMENT CONNECTIONS SURVEY

The Stage Management Special Topics class conducted a survey in October 2015 to explore the connections that the UI Theatre Department has to American theatres. While we may not be based in a large city, we have a network that reaches major theatres in nearly every state.

This survey is designed for students to use as they apply for jobs and internships. If you would like more information on a particular theatre or a region, check the list to see which faculty, staff, students, and alumni have connections.

Direct Connections mean that the respondents know people currently working at the theatre or have worked there themselves.

Indirect Connections mean that they know people who have worked at the theatre or that they may be able to provide some background information on the theatre.

The above map represents the depth of the UI Theatre Department's connections in each state. In 2015, the University of Iowa Theatre Arts Department has connections to 323 theatre companies.

Stage Management Special Topics '15
