

# Version 4.2

[<-- Version 4.1](#) | [Version 4.3 -->](#)

## Find Page Layouts in the Editor Toolbar

- Page Layouts are a great way of creating a common page structure. Click on the 'Page Layout' button in the editor toolbar to view a set of predefined layouts.

## Apply a Layout to Your Page

- Click on a layout to apply it to your page. Start adding content to each section and navigate between sections by pressing 'Tab'.

## Change Your Layout at Anytime

- Can't make up your mind? No sweat – change layouts as often as you like. Just select a new one from the editor tool bar.

## Add Comments, Quickly

- Commenting is now a whole lot faster. Whether you're adding a new comment or replying to an existing one watch the editor appear, instantly.

## Give Content the Thumbs Up

- Similar to Facebook, Confluence 'Likes' give pages, blogs, and comments your stamp of approval with a single click.

## Drive What's 'Popular'

- The combination of 'Comments' and 'Likes' drive what's 'Popular' in Confluence. Click next to find out more...

## New 'Popular' Tab on the Dashboard

- There's never been a better reason to visit the Confluence Dashboard. Check out the the 'Popular' tab to see what's trending, right now.

## Recommended Reading in Your Inbox

- Confluence knows you're busy, so to make sure you never miss another important conversation it will send you a weekly summary of what's most 'Popular'.

## Daily or Weekly, You Decide

- Hungry for more? Switch from 'Weekly' to 'Daily' summaries and never lose touch with what's most important at your company.
